The Androscoggin Valley Council of Governments will be hosting two Western Maine Discovery Work Sessions as a follow up to one held in Auburn on January 19<sup>th</sup> as part of the statewide *Mobilize Maine* initiative. The goal of this asset-based mapping exercise will be to uncover unique assets and knowledge that currently exists in the Western Maine region, and to develop a larger base of economic development leadership through the action teams that will pursue identified opportunities.

Through this interactive format you as business and community leaders will take charge of improving our economy. You will identify the region's most promising and marketable assets and begin to develop an action plan to capitalize on them! **Please RSVP to AVCOG at 783-9186 or to [alandry@avcog.org](mailto:alandry@avcog.org)**

The initial forum in January  
identified 50 assets and  
created 3 action teams to  
pursue identified  
opportunities!

Foundation → **Discovery** → Connect → Report
